## **Peatland Management: Forest Fire Units**

## **SEApeat Working Plan 2013**

## Specific focus on Building up Education & Awareness

### **Publications**

- Providing awareness materials by printing out notebook and posters
- Disseminating
   materials including
   notebook and posters
   to local people

## Raising Awareness

- Fire Management training for Local Leadership
- Village fire volunteer brigade training
- Establishing fire volunteer brigade network

## National Action Plan

- Finalizing National Action plan
- Printing out the final plan

May 2013

May - July 2013

May – December 2013

## **SEApeat Working Plan 2013: Publications**

- Created some printing materials of the poster and notebooks containing the information on status and importance of peatland as well as related issues in order to provide knowledge, and expertise, and to raise awareness on fire protection and control in peatland.

# SEApeat Working Plan 2013 : Education & Awareness campaign

#### Course:

Fire Management in Peatland Training for Local Leaders

#### Objective:

To build up strong Local Leadership and conscious in preventing and solving the problems of forest fire

**Target groups:** Local Leaders

#### **Outline of the course content:**

- The basics of fire on Peatland
- Forest Fire Theory and Behavior
- The causes and effect of forest fire
- Peatland fire fighting
- Equipment Management
- Practicing fire fighting

Operated the training course entitled "Local leadership fire management" on May 29th, 2013 at Cha-uad Kreng Tham Wittaya school, Nakhon Sri Thammarat Province. The participants were the leaders of communities around Kuan Kreng peatland area including 2 sub-districts in Patthalung Province and 10 sub-districts in Nakhon Sri Thammarat Province. The total number of the participants was 150 persons, 122 men and 28 women.

# APFP Working Plan 2013: Education & Awareness campaign

#### Course:

Village fire volunteer brigade training course

#### Objective:

To build up village fire volunteer brigade to be leader for preventing and fighting fire

**Target groups:** Local Communities

#### **Outline of the course content:**

- The basics of Forest Fire on peatland
- Forest Fire Theory and Behavior
- The causes and effects of fire in the peatland
- Fire Suppression Basics
- Teamwork and forest fire factors on the fireline
- Using fire equipment
- Practicing fire fighting

1st batch in July 9th, 2013 at local wisdom college, Thaksin University, Kuan Khanoon district, Patthalung province. The participants were volunteers from 2 subdistricts in Kuan Khanun district, Patthalung province. Mr. Prateep Suwan, deputy district chief was the chair of opening ceremony. The total number of the participants was 114 persons, 32 men and 82 women.

2nd batch in July 11th, 2013 at Mae Chao You Huar sub-district headman's office, Chianyai district, Nakhon Sri Thammarat Province. The participants were volunteers from 6 sub-districts in Nakhon Sri Thammarat province. Mr.Pitak Boripit, district chief was the chair of opening ceremony.
