Executive Summary

[\[click here and insert text\]](#)

5. Introduction

Describing how the data for PCR is collected and how the PCR is written.

6. Project Background

2.4 Description and implementation arrangements

Project goals, objectives, components and (original and modified) implementation arrangements.

2.5 Project strategy and approaches

*Site selection approach, targeting, **stakeholder engagement including community participation**, selection of implementation partners, gender strategy, etc.*

2.6 Project costs and financing

Total cost, co-financing, any fiduciary aspect issues and how they are resolved

7. Project Performance Review

3.8 Review of project outputs

In both quantitative and qualitative ways against indicators per component and activity.

3.9 Assessment of project relevance

Whether project's outcome consistent with the GEF focal areas strategies, and country priorities and policies.

3.10 Assessment of project effectiveness

Whether actual project outcomes commensurate with the original or modified project objectives (i.e. examine the outcome of the project components compared to expectations based on programme objectives). Recommend to assess each component (ex. one paragraph per component).

3.11 Assessment of impact

In terms of Global environmental benefits and poverty alleviation. But also an assessment of how the output of the project contributed to realization of the goal. Recommend to assess in two ways – a component-wise assessment, and categorizing and describing impacts under broad impact domains.

3.12 Assessment of project efficiency

Examine the appropriateness of investment, and number of beneficiaries or achievement of targets, least cost options, any delays.

3.13 Assessment of sustainability

Any financial/ environmental/ sociopolitical risks that jeopardize sustainability of project outcomes, likelihood of no further financial support after the GEF cycle, any legal frameworks, policies and governance structure that pose risks for sustainability,

3.14 Innovation, replication and scaling-up

8. Lessons learned

3.15 Project Design and Implementation including the M&E system

3.16 Recommendations for project activity scaling-up and sustainability
